international level, while at national level it is NASSMEC, IASSMEC is about automating self-management and cooperatives within the mutual economy. In order to facilitate self-management and work in addition to facilitating interaction between cooperatives and the economy itself. Each cooperative would have its own terminal that would exchange information with the other terminals of other cooperatives, and there may be a central terminal that would be the center of IASSMEC’s administration. It can be connected to the internet or be your own internet / intranet system, even using the internet of things to facilitate automation, and there may be the internet of things within IASSMEC. The automation of IASSMEC can be either by the normal line (transhumanism) or by the line of extraphysicism.
